# HUMANITARIAN INNOVATION GUIDE
## DESIGN CRITERIA

Gray Dot Catalyst

Use this worksheet to define the criteria that any new solution will need to meet to be considered a success. You should limit this to the most important criteria so that it doesn't become too restrictive – ideally less than 10 in total.

Criteria for the user (eg, must be understandable for someone with limited literacy level)

- 
- 
- 
- 

Criteria for the use case (the value a solution should deliver) (eg, service must be available 24 hours a day)

- 
- 
- 
- 

Criteria for the context (eg, must work in extremely dusty climate)

- 
- 
- 
- 

Technical specifications (eg, must weigh less than 10kg)

- 
- 
- 
- 

Other Criteria

- 
- 
- 
-
